

Project Management

Working in partnership with you from start to finish, Octavius' methodology offers organisation's new perspectives on realising community projects.

These are some of the organisations and projects Octavius has worked with and on in the last 7 years when it was registered:

Big Hoot

Octavia

Over 75 members of the community participated in workshops with the artist at Soho House Museum and Octavius' workspace. The community wanted to express love, homes, migration and cultural heritage.

The nest reflects this notion and the sticks intertwined represent our community. The linked coins, patterns, cogs and jewels spell out the message that together we are stronger.
